EDUCATION

Hong Kong University of Science and Technology — Incoming
PhD, Department of Electronic and Computer Engineering
Advised by Prof. Song GUO.

Xidian University — 09.2023 – 07.2027 (expected)
B.E., School of Telecommunication Engineering · GPA: 3.8/4.0
Advised by Prof. Xiumei WANG.

EXPERIENCE

Cardinal AI Lab, InfRec — 07.2026 – Present
Chief Research Officer (Founding Member)
- Lead research on recursive self-improvement and long-horizon interaction, enabling agents to learn and control embodied robots.
- Guide research from problem formulation to prototypes, working with engineering teams on real-world embodied AI applications.

Alibaba — 05.2026 – 07.2026
MLLM Research Intern
- Research: combined multimodal representations with OPD, exploring post-training, SFT, and industrial product benchmarks.
- Business: studied image-text alignment data pipelines for product representations and retrieval in large-scale e-commerce.

TeleAI — 01.2026 – 03.2026
LLM Research Intern
- Focused on AI infrastructure for LLM training and inference on Huawei Ascend 910B, emphasizing efficient and stable execution.
- Worked on precision alignment for LLM training and inference, addressing precision differences at the AI infrastructure level.

National University of Singapore — 10.2024 – 10.2025
Research Assistant · HPC-AI Lab
Advised by Prof. Yang YOU, Prof. Wangbo ZHAO, and Dr. Pengfei ZHOU.
- Focused on efficient AI and multimodal model evaluation, studying model efficiency and performance across research tasks.
- Learned to lead research teams through collaborative projects, developing ideas and working toward research publications.
